<b>10th, Maharashtra State Board</b> ZPKV , Malegaon	Percentage :- 95.20 2018

## SKILLS

---

### Technical Skills :

**Programming Language :** C++

**Web Skills:** HTML, CSS, JavaScript, React, MySQL

**Interests :** Data Structures and Algorithms, Object Oriented Programming, Database Management System.

**Tools :** VS Code , Git Hub , MS-SQL.

**Soft Skills :** Good communication skills. Leadership Qualities. Confident and a quick learner.

## PROJECTS

---

### **IMDb CLONE - React , API , CSS , JS**

- It is a React-based application that replicates the functionality of the popular movie database website IMDb.
- Using the IMDb API, the project fetches and displays information about movies and other related data.
- Users can search for movies, view detailed information about individual titles, explore popular genres, and browse top-rated content.
- Live Demo :- <https://omkengeidbm.netlify.app/>

### **SORTING VISUALIZER - HTML , CSS , JS**

- It is designed to provide a visual representation of various sorting algorithms in action. The website allows users to interactively observe how different sorting methods, such as bubble sort, insertion sort, merge sort, and quicksort, rearrange a set of elements to their sorted order.
- Live Demo :- <https://astonishing-selkie-7d78ae.netlify.app>

## EXPERIENCE

---

### **Backend Developer - Intern**

1/02/2023 to 31/4/2023

- Worked as a Backend Intern at **FunServe Solutions LLP**.
- Technology used in internship project to develop API for Confidential Project using **.NET**
- Worked with various tools such as **Swagger, JIRA, Appsmith**.
- Got to learn software development life cycle and patterns of development such as **DDD and SOLID framework**.
- Worked on a project for developing an application for Conference Booking App.
- Conference Booking App API Live Hosting on Swagger :- <http://api-incubation.funserveapp.in/swagger/index.html>
